

REMEDIAL SITE ASSESSMENT DECISION - EPA REGION 7

SITE NAME: Mound Street PCB

EPA ID#: MOD0000093682

Alias Site Names: \_\_\_\_\_

City: St. Louis

County or Parish: St. Louis Co.

State: MO

Refer to Report Dated: 6/6/96

Report type: Screening Site Inspection Report

Report developed by: Sverdrup

DECISION:

☒ 1. **Further remedial site assessment under CERCLA (Superfund) is not required because:**

☐ 1a. Site does not qualify for further remedial site assessment under CERCLA

☐ 1b. Site may qualify for further RCRA action, but is deferred to: ☐ NRC

No Further Remedial Action Planned (NFRAP)

☐ 2. **Further Assessment Needed Under CERCLA:** 2a. Qualifier: ☐ Higher ☐ Lower ☐ Part of NPL Site  
☐ Referred to Removal, Needs More Remedial ☐ Referred to Removal, No Further Remedial

2b. Activity Type: ☐ PA ☐ SI ☐ ESI ☐ HRS evaluation

☐ Other: \_\_\_\_\_

DISCUSSION/RATIONALE:

Soil samples collected from the site are well below the Missouri ASLs. Ground water samples collected from monitoring wells on adjacent property have only minor contamination.

Based on information available at this time, no further action is required by the EPA Superfund Program. EPA may reassess this determination if we were to receive information relevant to this determination.

The EPA recognizes that there may be materials present beneath the ground surface containing potentially significant concentrations of hazardous substances which could be released to the environment or expose people under certain conditions which do not currently exist. The EPA recommends that consideration be given to collecting and analyzing additional samples should excavations at the site be considered.
